WHAT WE DO
“At RELLIS, we innovate new technologies and products. We educate the next generation of researchers, engineers, entrepreneurs and leaders. We transform people, ideas and the world. Innovation. Education. Transformation. These concepts are at the core of everything we do.”

THE RIGHT FORMULA
RELLIS is located on 2,000 acres, only minutes from Texas A&M University and in close proximity to major metropolitan areas. We work with diverse companies on world-changing concepts and foster students toward a variety of degree paths. RELLIS is the only combined center of research, education and innovation of its kind in the state of Texas. RELLIS is an unparalleled environment for personal growth, research and discovery.

PARTNERING WITH INDUSTRY AND STATE AGENCIES
At RELLIS, we collaborate with an array of partners to facilitate innovation. Entrepreneurs, investors, large enterprises, private companies and research teams make up the RELLIS ecosystem. Our partnerships showcase advancement in technology and high-tech development in multiple areas, while stimulating education in transportation, engineering, manufacturing and more.

The RELLIS Campus will be the ideal location for companies to design, develop and test new technologies. We welcome and encourage participation and strategic partnerships with all public and private sector entities interested in finding solutions to the challenges we face in the 21st century.

Let us know how we can collaborate with your organization. RELLIS.TAMUS.EDU/PARTNER
